

Dear my Brother Mark,

Here is the full report of our Church Training Campus here that you have built for us with the Methodist Church there . We are very grateful for this and we say thanks to all who helped us to build it well. By this time it has been roofed . We are remaining with the problem of floor and plaster. In addition to this we don't have chairs to sit on. As of now we are sitting on the floor during the days of prayers.

We are planning to start our first training for leaders in December of this year , Lord willing. We are working hard and praying that the Lord of mercy may have mercy with us. We trust you that The good Lord who started this work in you , may enable you to do anything that you can do for us. We are in your hands of care here.

I pray my beloved Mark Sandels has a lot of photos and will show you some about this. If not I can choose some here and send them to you.

This Training Campus will help all Malawian leaders to learn together hence do the work of God with one accord. This is the rule of the Bible. Believers (Christians) must be doing one thing at the same time. This prevents separations and quarrels. So your idea of giving us this Training Campus has helped us a lot. God may really bless you.

We are planning to open it officially next year in July. How we are anxious that you may send someone to be with us on the day of opening if it can be possible. Only God knows this well.

May I hear more from you. God may richly guide you in all your plans to help us fulfill this program. It is hard for us alone. We cannot run this program alone. We need your help Sirs. Mainly we can be very grateful if you can think of us about plastering and flooring as of now. This needs urgent assistance , Lord willing.

Yours In His Glory,
Evangelist & Pastor Yotam Theu
